

libzmq integration with RDK

I want to integrate libzmq to RDK ,while i wrote recipe to download and that was as below, while processing that i got a error as mentioned below ,can u suggest me how to solve this and what was the issue.

```
SUMMARY = "libzmq"
LICENSE = "GPLv2"
```

```
SRC_URI = "git://github.com/zeromq/libzmq.git;protocol=https;branch=master"
```

```
S = "${WORKDIR}/git/libzmq"
```

```
do_compile() {
    ${S}/autogen.sh
    ${S}/configure
    ${S}/make
    ${S}/make install
}
```

ERROR: ExpansionError during parsing /home/google/NET_SDK_TEAM/eresh/meta-prplmesh/recipes-connectivity/libzmq/[libzmq_1.bb](#): Failure expanding variable do_compile: ShellSyntaxError: Unexpected EOF
