Enable SSH on RDK RefImage DAC

Dear Community,

we built a DAC container and want to upload it with BundleGen on a RPI3 with DAC RefImage installed.

But we get the error on upload via scp: Unable to negotiate with 192.168.80.94 port 22: no matching host key type found. Their offer: ssh-rsa

How do we enable SSH on RefImage?

Via Service on port 9998 we found no posibility.

Thank you in advance,

best regards

Markus
