FORUMS Home

Welcome to the RDK Forums!

The Forum is provided as a service to the RDK community to help you exchange information, tips and techniques related to RDK. You can comment on existing topics or create new topics for discussion.

You may **open a forum topic** if:
- You have a general question about RDK or RDK tools such as TDK and you want to discuss this with the community.
- You wish to create a community discussion about a specific or general topic.
- You wish to share something you have learned about RDK.

Sometimes **opening a Jira ticket** maybe the more appropriate thing to do. You may open a Jira ticket if:
- You find a specific issue and need to get it resolved.
- You find an issue with a "how-to", "setup", "user manual" or any documentation associated with RDK.
- You have questions on RDK requirements and technical specifications.

Note: Topics that you create here will be visible to all RDK licensees and their contractors.
